Contracts

New contract

Create the contract record. You can invite the counterparty once it’s saved.

Step 1 · Basics | Step 2 · Parties & workspaces | Step 3 · Commercial terms | Step 4 · Dates

Fields marked with an asterisk (*) are required.

Contract title *

Trans-Delta 24″ Pipeline Integrity Programme

Reference number *

CF-2026-0142

Your internal reference.

Contract type *

EPC — Engineering, procurement & construction

Your company’s party role *

Client (Awarding party)

Scope of work Optional

Inline inspection (MFL/UT), defect assessment to ASME B31G, and repair of 142 km of 24″ trunkline from Okrika manifold (KP-0) to Bonny terminal (KP-142).

☑ This is a subcontract of an existing contract

Link it to a parent so values and progress roll up.

Parent contract *

CF-2026-0142-P · Niger Delta Trunkline Rehabilitation Master Agreement

Contracts

New contract

Step 1 · Basics | Step 2 · Parties & workspaces | **Step 3 · Commercial terms** | Step 4 · Dates

- [x] **Project workspace** — Milestones, variations, daily logs, inventory
- [x] **HSE workspace** — Incidents, inspections, actions, compliance
- [x] **Finance workspace** — Invoices, payments, retention

Workspaces chosen in step 2. Add or remove them any time from the contract.

Currency *
NGN — Nigerian naira

Original contract value *
18,450,000,000.00
₦18,450,000,000.00

Advance payment Optional
10
Percent of contract value

Retention rate *
5
Percent held from each certified invoice

Retention release
50% at completion, 50% after 12-...

Payment terms
30 days after certification

Variation approval threshold Optional
250,000,000.00
Variations above this need a second approver.

H_2S alarm at 12 ppm in excavation pit 3

Reported by Fatima Bello · 7 Nov 2026, 13:58 · investigation submitted 9 Nov 2026

High | Investigating

Investigation findings

Immediate cause
Disturbed anaerobic swamp sediment released H_2S during excavation dewatering.

Root cause
Pre-task gas test was done at the pit edge, not at the working depth; JHA did not identify sediment H_2S.

Contributing factors
Calm wind; pit deeper than 2.5 m without forced ventilation.

- Investigation report... — Root cause analysis · 1.4 MB
- Gas monitor log exp... — 13:30–14:30
- Revised JHA-112-0... — Version 2

Invoice details

Invoice number * INV-0035

Invoice date * 9 Nov 2026

Currency NGN — Nigerian naira

What you're billing

Only approved milestones and approved variations can be invoiced.

- [ ] **M-06 Repair sleeves KP-40–62**
  Approved at 80% · ₦882,000,000.00 already billed
- [ ] **M-07 Hydrotest KP-40–62**
  Awaiting client decision — can't be invoiced yet
- [x] **VO-011 Delete CP survey**
  Approved deduction · −₦62,000,000.00
- [ ] **M-08 Reinstatement & ROW clean-up**
  In progress (35%) — can't be invoiced yet

Attachments

VO-011 approval.pdf
Client signed

Delivery note DN-33...
Hydra Coatings

Add

Summary

VO-011 deduction	−₦62,000,000.00
Retention (5%)	+₦3,100,000.00
VAT (7.5%)	−₦4,650,000.00
Net credit	**−₦63,550,000.00**

Would exceed contract value
Adding M-08 at 100% would bill ₦19.18bn in total, which exceeds the current contract value of ₦18.86bn.

Amounts

Certified net payable	Received	Shortfall
₦981,000,000.00	₦968,600,000.00	₦12,400,000.00

Thread

EN **Emeka Nwosu** · Ridgeline · 6 Nov, 16:48
Received ₦968.6M against ₦981.0M certified. Bank statement attached. Was WHT deducted at 5% instead of 2.5%?
Statement Oct.pdf

IM **Ibrahim Musa** · Atlantic Delta · 7 Nov, 09:15
Confirmed — WHT applied at the wrong rate. We'll pay the ₦12.4M balance with PAY-0021 and issue a corrected WHT credit note.
